

Dear firstname,

At the start of the month, Forest Ecologist Erik Piikkila took a group of people on a walk through Duck Creek Park on Salt Spring Island to talk about fire and our forests.

The talk focused primarily on how healthy forests can protect our properties from fires, with Erik covering a wide range of topics from thinning to what to do about downed dead wood.

If you're interested in learning more about how healthy forests can shield you from fire and drought, check out the recording of [Erik's webinar](#) and highlights from his [walk through Duck Creek](#).

FUTURE-PROOFING YOUR HOME WITH WATER MANAGEMENT

Featuring Permaculturalist Erinanne Harper and Climate Action Coach Morgan Fraser

TOMORROW!

June 28, 2023, 7:00 PM (PST)

Location: Online via Zoom

Cost: Pay-what-you-can

REGISTER TODAY!

- ✓ Discover practical solutions for maximizing under-utilized water resources.
 - ✓ Explore rainwater capture techniques, systems, rebates, and legal regulations.
 - ✓ Save money and conserve water with rain barrels and ponds.
 - ✓ Dive into innovative ideas for effective greywater usage and reducing consumption with drought-resistant plants and composting toilets.
 - ✓ Unlock benefits of water holding, infiltration, and crucial role swales and berms can play.
- Secure your spot now and receive an email reminder with the webinar link.
